

## THE HIGH SCHOOL BULLETIN

Editor-in-Chief, Graydon Robinson  
Senior Reporter, Miss Best  
Sophomore Reporter, Miss Dillman

Book night came off better than expected. Although the night was very bad over 120 books were taken in. A program was rendered and by the applause was greatly appreciated by the audience. After the program refreshments were served. We thank the people greatly for their patronage.

Don't forget Judge Brown's lecture Friday night. Judge Brown is of international fame as a speaker on "The Loy Problem." Reserved seat tickets are on sale to-day at the usual place. Admission, adults 50c, children 25c; reserved seats 10c extra.

The seniors had Monday afternoon off to sell tickets.

"HAVE YOU GOT YOUR COMMENCEMENT PIECE!!"

It does not make it right to do what you ought not to do when you don't do what you ought to do.

Florence—I see you are reading the dictionary. Do you find it interesting?  
Earle—No; more amusing than interesting. It spells words so different from the way I spell them.

Miss Milliren—Why, Bryant, our American poet, knew his alphabet when he was 17 months old and could read anything when two years old.  
Harry—Aw, I don't believe that.

"Your life or your money," said the robber. "Take my life," said Tom, "I'm saving my money for my old age."

A satisfied people is the best advertisement. Dr. Gibson has visited in Reynoldsville for a long time and the past year has been the best one. His old friends, as they need glasses, come back to him. At Reynoldsville March 18.

## Only Course Left to Pursue.

The postoffice ruling that goes into effect April 1st will make it necessary for us to either pay a largely increased amount of postage on a large number of papers sent to subscribers who have allowed themselves to get in arrears, or cut these subscribers from our list. Much as we dislike to do so, the latter course is the only one left for us to pursue. Therefore, in compliance with the ruling of the Postoffice Department, the publisher of THE STAR asks all of its subscribers who are ONE OR MORE YEARS IN ARREARS to make immediate payment as all those who do not pay up, or indicate their intention of doing so, ON OR BEFORE APRIL 1, 1908, will be dropped from our list and their accounts placed in the hands of an attorney for collection. This will not be done, however, if satisfactory arrangements are made by the delinquents for the settlement of the amounts now due. In the payment of these claims we will accept either cash, check, money order or note, but it is absolutely necessary that settlement of all accounts now due must be made before April 1st, 1908. A second statement of account has been sent to a number of delinquent subscribers and others will receive a second statement in a few days.

### Paradise.

Ye writer is glad to be able to attend to his duties again, after being very seriously ill for several days, and feels very grateful to the neighbors and friends for their kind help during that time.

J. M. Sheesley, who is living with his aunt in Snydertown, was circulating among his old friends in this place a few days ago.

We are at a loss to know who is writing up the Trout Run news. If they intend keeping it up they must get a little better gait on or they may be over powered. We wish them success.

Some people maintain that a high hat doesn't become all men, but it seems to us that a stove pipe ought to suit everybody.

Our friend, Harry Daugherty, has purchased a violin and has nearly mastered the song entitled, "wait till the sun shines Carrie."

Mable Long, of Rathmel, visited her cousin, Maggie Cathers, over Saturday and Sunday.

Walter J. Sprague has purchased a very valuable team of jet black horses. He now has as fine a span of horses as you may see anywhere.

Frank Hillis attended an oyster supper at the Hornstown Grange hall Saturday night.

Parson Meade Syphrit called on friends near Sykesville Saturday and Sunday.

There will be preaching at the Lutheran church next Sunday morning at 10:30 and at the M. E. church Sunday school at 10:00 and preaching at 11:00 a. m. Let everybody turnout.

Elda Barnett visited Bell Syphrit over last Sunday.

Some people think the severe winter has greatly damaged our orchards in Paradise and the little place is almost be-cider-self with dismay.

If suspenders would only keep a man's reputation up as well as his trousers, we wonder how many pair our candidates, who are running for office, would be wearing at this time.

Mrs. M. M. McAdoo called on friends in Sykesville quite recently.

A very enjoyable evening was spent at the home of Peter Wells a few nights ago when a crowd of about thirty people gathered there and amused themselves in playing games. Flinch was the game indulged in, the one winning the most points was to get a prize. Ethel Cathers being the lucky one received the prize. Jimmy Norris took the booby prize.

The sleighing parties that went from here during last week were certainly enjoyable ones with the exception of a load that started for Mr. Hadden's place near Panic last Wednesday night. Their enjoyable time wound up in an upset. When the mix-up was over they discovered they had a broken sled. Securing another sled they arrived at their destination in merry spirits.

A surprise party was sprung on Mrs. A. M. Norris of Stoney Hill on Friday. About forty of our people attended. The occasion was her birthday. It was a complete surprise to her and the visitors found her in the wash tub rubbing for dear life. When the sun began sinking behind the western hill the visitors departed to their respective places of abode, wishing her many happy years to come.

John Lott has just recently bought a million feet of standing timber. He had no means to manufacture it into lumber only by the slow way of the old "up to day and down tomorrow" saw mill. He resolved to buy himself a portable mill, which he did. He expects to have it in running order in the very near future.

### MR. MURRAY'S CAMPAIGN.

The Popular Ex-Commissioner Making a Strong Race for Treasurer.

W. C. Murray, of Reynoldsville, who is among the leaders in the contest for the Republican nomination for county treasurer at the primary election in April, was in Brookville on Wednesday while on his way home from a tour through the northern and western sections of the county. Mr. Murray's campaign is assuming promising proportions, in view of the fact that while serving as county commissioner some years since he made a large acquaintance and proved himself to be such a courteous, competent and obliging public official as to earn and carry with him in his return to private life the most kindly feeling of all these acquaintances.

Since taking up his active canvass for the treasurer nomination Mr. Murray has met with such encouragement from the voters of the county as to lead him to believe that his candidacy meets with their approval, and from all parts of the county comes a word of commendation for his past record as a citizen, a Republican and a public official. Mr. Murray has been tried in the refining fire of public life and has proven himself capable and trustworthy. These attributes, coupled with his personal popularity, will make him a deciding factor in the contest. And Mr. Murray has ever had a faculty of enthusing his friends in his behalf—a faculty, by the way, which will prove a big matter in this contest.—Brookville Republican.

### Agrees With the Boy.

What may probably be the reason why so many citizens are anxious to be elected sheriff has just come to light. When Sheriff and Mrs. Grant Scheafnocker moved down to the sheriff's residence from Reynoldsville they brought with their numerous brood of little Scheafnockers, the oldest and largest of whom, John, was a lad of 14, weighing 115 pounds and standing 4 feet and 2 inches in his stocking feet, when he could be caught with his stockings on. In two years of life in the sheriff's office, or, to be exact, 26 months, this strapping kid has grown 21 inches in height and now stands 5 feet and 11 inches, while he sags the scale beam at 176 pounds. No wonder fellows with boys to raise are anxious to break into the sheriff's office, and incidentally Sheriff Scheafnocker is getting some help in his campaign for the treasurership from this traveling advertisement, there being a general feeling that any untoward occurrence which would separate the boy from an atmosphere which so thoroughly agrees with him would be a calamity.—Brookville Republican.

### No Use to Die.

"I have found out that there is no use to die of lung trouble as long as you can get Dr. King's New Discovery," says Mrs. J. P. White, of Rushboro, Pa. "I would not be alive to-day only for that wonderful medicine. It loosens up a cough quicker than anything else, and cures lung disease even after the case is pronounced hopeless." This most reliable remedy for coughs and colds, lagrippe, asthma, bronchitis and hoarseness, is sold under guarantee at Stoke & Feicht Drug Co. drug store, 50c and \$1.00. Trial bottle free.

Just arrived, Dorothy Dodd and Gold Medal Oxfords, Patent Kid, Fan and Gum Metal. Price \$2.00, \$2.50 and \$3.00 at Bing-Stoke Co's.

### KEPT WITHIN BOUNDS.

Young People in Virginia in Chief Justice Marshall's Day.

In an old biography of Chief Justice Marshall there is an anecdote which gives a significant hint of the discipline to which young people were subject in that earlier day.

Several of the great jurist's nieces were in the habit of visiting him, and as they were young and attractive the house became a rendezvous for the leading young men of the city during the afternoons. Judge Marshall's black major domo, old Uncle Joseph, held a tight rein upon these visitors. Every day at 4 o'clock he would appear at the door of the drawing room in spotless livery and with a profound bow would announce:

"Ladies, his honor the chief justice has retired to his room to prepare for dinner.

"Gentlemen, dinner will be served at half past 4 o'clock. It is now 4. His honor will be pleased if you will remain, and covers have been laid for you at the table. If you cannot remain, will you permit the young ladies to retire to prepare for the meal?"

The gentlemen usually took their leave, and the ladies retired in an ill humor, but any remonstrance with Joseph was only answered by: "It is the rule of the house. Young folks must be kept within bounds."

In Virginia houses of the better class, notwithstanding their almost boundless hospitality, the calls of young men in that day were strictly held within limit. No one was received as a visitor to an unmarried girl unless his antecedents and character were well known to her parents.

### GRAVITATION.

The Mystery of This Wonderful Force in Nature.

When plants are grown in receptacles fastened to the rim of a rapidly revolving wheel, the shoots and leaves grow toward the center and the roots away from the center of revolution. This is remarkable as showing the influence of centrifugal motion upon growth.

But the earth, any point in whose surface at the equator passes through fifteen miles in one minute, has a centrifugal motion so swift and so great that it is almost inconceivable. Why

then, reasoning on the basis of this wheel experiment, do not trees and plants grow in the directions they are urged by this centrifugal force—namely, with leaves and boughs toward the earth's center and roots pointing to the sky?

The answer is because there is a force called gravitation which overpowers the enormous centrifugal force and practically reverses it. Whether this overmastering force which we call gravitation is electrical or what it is no one has yet been able to discover. There can be no doubt that it is the greatest force we know of.

To unveil the mystery of it would be to become masters of a power whose possibilities dazzle the human mind. It would simplify the problem of building, water and air navigation, projectiles and many other branches of mechanics. It would revolutionize present methods.—St. Louis Post-Dispatch.

### Electric Light Bulbs.

It has been remarked that the effective life of incandescent electric lamps is much longer with clear than with ground glass bulbs. E. P. Hyde explains this fact as follows: A thin deposit of carbon is formed on the interior surface of the bulbs, and this absorbs a certain portion of the radiation from the filament. When the glass is clear the light passes straight through, suffering a definite loss from the carbon film. When the glass is frosted the light undergoes many reflections in the interior of the bulb from the innumerable facets, and at each reflection it loses something on account of the obstructing film. The consequence is that the total amount of loss is much greater with ground glass than with clear glass. Mr. Hyde's experiments show that the filament lasts as long in the one kind of bulb as in the other.—Youth's Companion.

### A Good Guess.

Mother—Mercy, child, how do you get your hands so dirty? You never saw mine as dirty as that! Child—No, but I guess grandma did!—Philadelphia Inquirer.

### Domestic Economy.

"I see Robinson's married again—marrived his first wife's sister."  
"Yes. He said he didn't want to have to break in another mother-in-law."—Leslie's Weekly.

### Attention Old Soldiers.

This is probably the last time we will have an opportunity to vote for a comrade for Congress. He is just as fit to serve now as he was in '61. Touch elbows, dress to the right and vote for Comrade Beale.
